

APPRECIATION FOR SERVICES RENDERED

PAULS PRODUCTIONS

Dear Paul,

I am writing in appreciation of the services you have recently rendered for the special project of filming and providing DVD coverage of the "Appreciation Luncheon" for myself and my ministry for the Lord.

Your professional approach to the assignment was obvious - your contact with the organisers; the request for technical information and your positioning of your camera was all truly noted.

Your unobtrusive manner during the actual event was truly appreciated. I was grateful for your positioning so that you did not create a problem for those serving during the function. I noted that you were able to use your equipment for close-ups and wide shots, thus creating an extremely high quality coverage.

Thank you sincerely for your services and finished product.

Thanks to your professionalism, we have a complete record of the gathering, the speeches and the general atmosphere of the occasion.

We have no hesitation in supporting your work in every way possible and in referring your services to others needing a professional production.

Gratefully,

RAMON A. WILLIAMS
(a very satisfied client)
